

DONALD LIVINGSTON

SENIOR WEB & UI/UX DEVELOPER

Pottstown PA, USA ✉ donlivingston@gmail.com ☎ 801-971-2482 🌐 donalddlivingston.com

Dear Hiring Manager,

I'm excited to apply for the Application Developer role with Dow Jones. With 12+ years in front-end development and UX, I bring deep expertise in React, Node.js, Express, and modern build tools - along with a track record of creating fast, reliable, and engaging web applications.

While I haven't worked in a newsroom, I know high-pressure, deadline-driven environments well. At MRM//McCann, I delivered digital campaigns under intense timelines, collaborating daily with marketers and project managers to rapidly prototype, test, and ship interactive experiences. Across roles in e-commerce and healthcare, I've partnered closely with designers, engineers, and product teams to build tools that balance technical precision with creative storytelling.

I'd love the chance to bring this same focus and adaptability to the Storytelling and Visuals team at Dow Jones. Thank you for your time and consideration.

Best, Donald Livingston
